SHOAIB MUSTAFA

SUMMARY

A second-year Computer Science student at Toronto Metropolitan University (TMU). Fast Learner and optimistic Computer Science enthusiast with a passion for learning and creating innovative software solutions. Proficient in Python, JavaScript, Django, and other languages. Possess excellent soft skills which include strong ability to think critically, be adaptive to ever-changing environments, communicate in a clear and concise way, and collaborate effectively with others. Highly motivated individual with a desire to find new opportunities, meet new people, forge meaningful connections and take on different challenges. Always striving to do more!

EXPERIENCE

Coding Tutor
CodeNinjas | Brampton, Ontario | October 2024 - Current

- Trained myself for the position by creating numerous games using the Unity Engine and C# as the main language.
- Teaching and guiding children on various programming topics such as JavaScript, Unity/C#, and block coding (similar to Scratch)

PROJECTS

Novaris Tech Company Website | *Django, HTML, CSS, JS, Python*
- Collaborated with Founder of Novaris Tech to create a sample Company Website
- Innovative Designs and Complex Animations
- Functional Database with an Email Sending System

Maze Video Game | *Unity Engine, C#, Premade Assets*
- 3D Birds Eye View Maze Game
- Uses Objects, Scripts, Animations, etc.
- Interactive elements (Maneuvering Objects w/ Controls)

Personal Portfolio Website | *Django, HTML, CSS, JS, Python*
- A website showcasing who I am and my abilities
- Has a Database which allows users to contact me

Ecommerce Website (Skullcandy Inspired) | *Django, HTML, CSS, JS, Python*
- Inserting and Retrieving from Database (much more functional)
- Working Cart System
- Functional Search System
